

## Drink and Food

Water in bottles that can be reclosed (screw top) is permitted. Beverages in cans and open containers are not permitted in the Library. Drinks are not permitted near electronic equipment (ie. near computer workstations or microfilm readers). Trash is expected to be placed in the appropriate containers, and spills should be wiped up. Unattended water bottles will be discarded. All areas should be as clean as they were before use. We are all responsible for keeping the library clean, safe, and pleasant. Food is not permitted in the Library. Per the Wead Library Meeting Policy, organizations with approved library events may have food and drinks in certain areas of the library. Library sponsored events may also allow food and drinks. Food and beverages are allowed in staff areas and staff workstations.
